Committees responsible for this British Standard

This British Standard was published under the direction of the Plastics Standards Committee PLC/-. Its preparation was entrusted to Technical Committee PLC/41 upon which the following bodies were represented:

- British Plastics Federation
- British Ship Research Association
- British Woodworking Federation
- Chemical Industries Association
- Electrical and Electronic Insulation Association (BEAMA)
- ERA Technology Ltd.
- Ministry of Defence
- Society of British Aerospace Companies Limited
- Society of Motor Manufacturers and Traders Limited

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Paper and Board Industry Federation (PIF)
- Electronic Engineering Association
- Telecommunication Engineering and Manufacturing Association (TEMA)

This British Standard, having been prepared under the direction of the Plastics Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 May 1983

Committees responsible	Inside front cover
Foreword	ii
1 Scope	1
2 Cross sections and wall thicknesses	1
3 Tolerances on internal side length	1
4 Tolerances on wall thickness	1
5 Tolerances on external dimensions	1
6 Departure from straightness	1
7 Performance requirements	3
Appendix A Density	4
Appendix B Preferred nominal dimensions of rectangular moulded tubes	4
Table 1 — Cross sections and wall thicknesses of rectangular moulded tubes	1
Table 2 — Maximum deviation from nominal internal side length	1
Table 3 — Tolerances on wall thickness	2
Table 4 — Maximum deviation from nominal external side length	2
Table 5 — Performance requirements	2
Table 6 — Requirements for electric strength normal to axis in oil at 90 °C	3
Table 7 — Typical densities of tubes	4
