

Methods of test for

Anodic oxidation coatings on aluminium and its alloys —

Part 1: Determination of mass per unit
area (surface density) of anodic
oxidation coatings (gravimetric
method) —

[ISO title: Anodizing of aluminium and
its alloys — Determination of mass per
unit area (surface density) of anodic
oxide coatings — Gravimetric method]

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Surface Coatings (other than Paints) Standards Committee (SRC/-) to Technical Committee SRC/4 upon which the following bodies were represented:

- Aluminium Federation
- Aluminium Window Association
- Association of Builders' Hardware Manufacturers
- British Anodising Association
- British Lock Manufacturers' Association
- British Metal Finishing Suppliers' Association
- Institute of Metal Finishing
- Institution of Chemical Engineers
- Institution of Corrosion Science and Technology
- Metal Finishing Association
- Metal Window Federation Limited
- Ministry of Defence
- Royal Institution of Chartered Surveyors

This British Standard, having been prepared under the direction of the Surface Coatings (other than Paints) Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1984

First published October 1981
First revision December 1984
© BSI 03-1999
