Method for

Measuring partial discharges in instrument transformers

[IEC title: Instrument transformers — Part 4: Measurement of
partial discharges]

Cooperating organizations

The Power Electrical Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

- Associated Offices Technical Committee
- Association of Short Circuit Testing Authorities
- British Electrical and Allied Manufacturers' Association (BEAMA)*
- British Railways Board
- British Steel Corporation
- Cbmpe
- Department of Energy (Electricity)*
- Electrical Contractors' Association
- Electrical Contractors' Association of Scotland
- Electricity Supply Industry in England and Wales*
- ERA Technology Ltd.
- Institute of Purchasing & Supply
- Institution of Electrical Engineers
- Ministry of Defence
- National Coal Board
- National Economic Development Office
- Trades Union Congress

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

- Association of Consulting Engineers
- Engineering Industries Association
- The Transmission & Distribution Association (BEAMA)

This British Standard, having been prepared under the direction of the Power Electrical Engineering Standards Committee, was published under the authority of the Executive Board and comes into effect on 30 November 1981
