Cooperating organizations

The Mechanical Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

Association of Consulting Engineers	Department of Transport
Association of Hydraulic Equipment Manufacturers	Electricity Supply Industry in England and Wales
Association of Mining, Electrical and Mechanical Engineers	Energy Industries Council*
British Compressed Air Society*	Engineering Equipment Users' Association
British Electrical and Allied Manufacturers' Association (BEAMA)	Federation of Manufacturers of Construction Equipment and Cranes
British Gas Corporation	Health and Safety Executive*
British Gear Manufacturers' Association	Institution of Gas Engineers
British Internal Combustion Engine Manufacturers' Association	Institution of Mechanical Engineers*
British Pump Manufacturers' Association	Institution of Plant Engineers
British Steel Corporation	Institution of Production Engineers
British Steel Industry	Lloyd's Register of Shipping
Chartered Institution of Building Services	London Transport Executive*
Crown Agents for Oversea Governments and Administrations	Machine Tool Industry Research Association
Department of Industry (Mechanical Engineering)	Ministry of Defence*
Department of Industry (National Engineering Laboratory)	National Coal Board
Department of the Environment (PSA)*	Oil Companies Materials Association
Department of Trade (Marine Division)	Process Plant Association
	Society of Motor Manufacturers and Traders Limited
	Telecommunication Engineering and Manufacturing Association (TEMA)
	Water-tube Boilermakers' Association

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

Department of the Environment (Building Research Establishment)	Motor Industry Research Association
Filtration Society	Society of Environmental Engineers
Hevac Association	Trades Union Congress
Institute of Environmental Science and Technology	Coopted members

This British Standard, having been prepared under the direction of the Mechanical Engineering Standards Committee, was published under the authority of the Board of BSI and comes into effect on 30 April 1982

National foreword

This British Standard has been prepared under the direction of the Mechanical Engineering Standards Committee and is identical with ISO 3649:1980 “*Cleaning equipment for air or other gases — Vocabulary*” published by the International Organization for Standardization (ISO).

Terminology and conventions. The text¹⁾ of the International Standard has been approved as suitable for publication as a British Standard without deviation.

Some terminology and certain conventions are not identical with those used in British Standards; attention is especially drawn to the following.

The comma has been used throughout as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

¹⁾ Because of the structure of this glossary, the French text has had to be retained in this British Standard.
