Cooperating organizations

The European Committee for Standardization, under whose supervision this European Standard was prepared, comprises the national standards organizations of the following Western European countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisliitto, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxemburg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard was published under the authority of the Board of BSI and comes into effect on 31 October 1990

© BSI 12-1999

First published July 1982
Second edition October 1990

National foreword

This British Standard has been published under the direction of the Wood Preservation Standards Policy Committee. BS 6239 was first published in 1982. This revision supersedes BS 6239:1982 which is withdrawn.

This British Standard is identical with EN 117:1989 “*Wood preservatives; Determination of the toxic values against *Reticulitermes santonensis* de Feytaud (laboratory method)*” published by the European Committee for Standardization (CEN). EN 117:1989 was prepared as a result of discussion in CEN Technical Committee 38 “*Durability of wood and wood-based products*”, in which the UK participated.

This edition of BS 6239 differs from the 1982 edition in that a number of editorial changes have been introduced. The main purpose of the changes is to align the requirements for the test report (clause 9 and Annex A) with other standards in the series.

National appendix A gives the constitution of the committee responsible for the UK participation in the preparation of this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Key words: Wood preservatives, xylophagous animals, termites, analysis methods, determination, effectiveness limit, test equipment, test specimen, test specimen conditioning, tests, testing conditions, visual inspection, test results, animal husbandry

English version

Wood preservatives; Determination of toxic values
against *Reticulitermes santonensis* de Feytaud
(Laboratory method)

Produit de préservation des bois;
Détermination du seuil d'efficacité contre
Reticulitermes santonensis de Feytaud
(Méthode de laboratoire)

Holzschutzmittel; Bestimmung der Grenze der
Wirksamkeit gegenüber *Reticulitermes*
santonensis de Feytaud
(Laboratoriumsverfahren)

This European Standard was accepted by CEN on 29 May 1989. CEN members are bound to comply with the requirements of the CEN/CENELEC Common Rules which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards organizations of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Brief history

This European Standard was drawn up by the Technical Committee CEN/TC 38 “Durability of wood and wood products” the Secretariat of which is held by AFNOR.

At its plenary meeting of October 1988, CEN/TC 38 adopted resolution no. 4 so that Standard EN 117, which is over 5 years old, be submitted to formal vote in view of its confirmation.

In accordance with the Common CEN/CENELEC Rules, the following countries are bound to implement this European Standard:

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
