Cooperating organizations

The Road Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

- Asphalt and Coated Macadam Association
- Association of Consulting Engineers
- British Quarrying and Slag Federation
- British Tar Industry Association
- Cement and Concrete Association
- Concrete Society Limited
- Construction Plant-hire Association*
- Convention of Scottish Local Authorities
- County Surveyors' Society
- Department of the Environment (PSA)
- Department of the Environment (Transport and Road Research Laboratory)
- Department of Transport
- Federation of Civil Engineering Contractors*
- Federation of Manufacturers of Construction Equipment and Cranes*
- Greater London Council
- Institute of Petroleum
- Institute of Quarrying
- Institution of Civil Engineers*
- Institution of Highway Engineers*
- Institution of Municipal Engineers
- Institution of Structural Engineers
- Local Authorities Policy Committee
- Ministry of Defence*
- Refined Bitumen Association Ltd.
- Road Emulsion Association Ltd.
- Road Surface Dressing Association
- Sand and Gravel Association Limited
- Society of Chemical Industry
- Trades Union Congress*

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

- Associated Offices Technical Committee
- Construction Industry Training Board
- Department of Industry
- Health and Safety Executive
- National Coal Board
- Coopted members

This British Standard, having been prepared under the direction of the Road Engineering Standards Committee, was published under the authority of the Board of BSI and comes into effect on 30 November 1982

National foreword

This British Standard has been prepared under the directions of the Road Engineering Standards Committee and is identical with ISO 6016:1982 *“Earth-moving machinery — Methods of measuring the masses of whole machines, their equipment and components”* published by the International Organization for Standardization (ISO).

ISO 6016 was produced as a result of international discussion in which the UK took an active part.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation.

Some terminology and certain conventions are not identical with those used in British Standards; attention is especially drawn to the following.

Where the words “International Standard” appear referring to this standard, they should be read as “British Standard”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
