

Ceramic floor and wall tiles —

Part 4: Extruded ceramic tiles with a water absorption of $6 \% < E \leq 10 \%$ —

Group AIIb. Section 4.2 Specification for specific products (terre cuite, cotto, baldosin catalan)

The European Standard EN 187-2:1991 has the status of a British Standard.

UDC 691.433-413-033.6:666.75-184.2

Cooperating organizations

The European Committee for Standardization, under whose supervision this European Standard was prepared, comprises the national standards organizations of the following Western European countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisiitto, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard was published under the authority of the Board of BSI and comes into effect on 28 February 1986

National foreword

This Section of this British Standard has been prepared under the direction of the Clay Products Standards Committee and is the English language version of EN 187-2:1991 “*Ceramic tiles. Extruded ceramic tiles with a water absorption of $6\% < E \leq 10\%$ (Group AIIb) — Part 2*” published by the European Committee for Standardization (CEN).

EN 187-2:1991 was produced as a result of international discussion in which the UK took an active part.

This Section covers the requirements only for certain specific products within the stated water absorption range (see clause 1). For all other tiles in this range see Part 4: Section 4.1

Attention is drawn to the use in this standard of the comma as a decimal marker. This is to accord with European practice, but it should be noted that it is current practice in British Standards to use a full point on the baseline as a decimal marker.

Additional information. When marking or specifying a product (see 6.1 and 6.2) the manufacturer may mark or specify by reference to either the European Standard or the British Standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Tiles, coating slabs, ceramic coatings, water absorption tests, equipment specifications, shape, dimensions, dimensional tolerance, physical properties, mechanical properties, chemical properties, marking

English version

Ceramic tiles — Extruded ceramic tiles with a water absorption of $6 \% < E \leq 10 \%$ (Group AIIb) Part 2

Carreaux et dalles céramiques —
Carreaux et dalles céramiques étirés à
absorption d'eau $6 \% < E \leq 10 \%$ (Groupe AIIb)
Partie 2

Keramische Fliesen und Platten —
Stranggepreßte keramische Fliesen und
Platten mit einer Wasseraufnahme
von $6 \% < E \leq 10 \%$ (Gruppe AIIb) Teil 2

This European Standard was approved by CEN on 1991-09-18. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
