

Maintainability of equipment —

Part 1: Guide to specifying and contracting for maintainability

UDC 658.58:621.3

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Electrotechnical Engineering Standards Committee (GEL/-) to Technical Committee GEL/6 upon which the following bodies were represented:

- Atomic Energy Research Establishment (AERE)
- British Telecommunications
- ERA Technology Ltd.
- Electricity Supply Industry in England and Wales
- Electronic Components Industry Federation
- Electronic Engineering Association
- Institute of Quality Assurance
- Institution of Electronic and Radio Engineers
- Ministry of Defence
- Society of British Aerospace Companies Limited
- Telecommunication Engineering and Manufacturing Association (TEMA)
- Coopted member

This British Standard, having been prepared under the direction of the General Electrotechnical Engineering Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1984

Amendments issued since publication

Amd. No.	Date of issue	Comments
13156	31 October 2001	Deletion of sections 1 and 3

Contents

	Page
Committees responsible	Inside front cover
National foreword	ii
1 Scope	1
Section 1. Introduction to maintainability	
<i>Section deleted</i>	1
Section 2. Maintainability requirements in specifications and contracts	
5 Introduction	1
6 Maintainability requirements	2
7 Verification	4
Section 3. Maintainability programme	
<i>Section deleted</i>	5
Appendix A Examples of the information the customer should give to the contractor	
<i>Appendix deleted</i>	6
Table I — Examples of quantitative maintainability requirements	4
Table II — Examples of qualitative subjects for which requirements may be specified	4

National foreword

This British Standard guide has been prepared under the direction of the General Electrotechnical Engineering Standards Committee and is identical with IEC 60706-1:1982, section 2, published by the International Electrotechnical Commission (IEC). Sections 1 and 3 have been withdrawn by amendment and have been superseded by BS IEC 60300-3-10:2001.

Additional information. As this is a guide, where the words “shall” and “must” appear implying a requirement, they should be read as “should”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
