Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Timber Standards Committee (TIB/-) to Technical Committee TIB/7 upon which the following bodies were represented:

- Association of British Plywood and Veneer Manufacturers
- British Railways Board
- British Wood Preserving Association
- British Woodworking Federation
- Department of the Environment (Property Services Agency)
- Department of the Environment (Building Research Establishment, Princes Risborough Laboratory)
- Greater London Council
- Institution of Structural Engineers
- National Association of Shopfitters
- Royal Institute of British Architects
- Timber Research and Development Association
- Timber Trade Federation

This British Standard, having been prepared under the direction of the Timber Standards Committee, was published under the authority of the Board of BSI and comes into effect on 28 February 1985

Foreword

BS 6566 has been prepared under the direction of the Timber Standards Committee and is in a number of Parts, issued separately. So far eight Parts have been published and Part 9 dealing with strength is in preparation.

- *Part 1: Specification for construction of panels and characteristics of plies including marking;*
- *Part 2: Glossary of terms;*
- *Part 3: Specification for acceptance levels for post-manufacture batch testing including sampling;*
- *Part 4: Specification for tolerances on the dimensions of plywood panels;*
- *Part 5: Specification for moisture content;*
- *Part 6: Specification for limits of defects for the classification of plywood by appearance;*
- *Part 7: Specification for classification of resistance to fungal decay and wood borer attack;*
- *Part 8: Specification for bond performance of veneer plywood.*

Appendix B to this Part of BS 6566 is a guide to the two ranges of common lengths and widths in which plywood panels are usually available.

For information on structural uses, specifiers should refer to BS 5268-2.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
