Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee ISE/10, Flat rolled steel products, to Subcommittee ISE/10/8, Coated steel flat rolled products, upon which the following bodies were represented:

- British Metalforming Trades Association
- British Welding Steel Tube Association
- Cold Rolled Sections Association
- Institute of Spring Technology
- Metal Roof Deck Association
- National Association of Steel Stockholders
- National Centre of Tribology
- Society of Motor Manufacturers and Traders
- Steel Construction Institute
- UK Steel Association
- Zinc Development Association

This British Standard, having been prepared under the direction of the Engineering Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 June 2000

Foreword

This British Standard has been prepared under the direction of the Engineers Sector Policy and Strategy Committee of the British Standards Institution. It supersedes BS 6582:1985 which is withdrawn.

Annex A is normative. The clauses of a contractual nature have been drawn together for information only into annex B.

WARNING The Control of Lead at Work Regulations 1980 apply to the products covered by this British Standard, requiring that precautions be taken during the welding and sometimes brazing in order to avoid the occurrence or effects of hazardous lead fumes. It is also required that precautions be taken during cutting and abrasive operations to avoid exposure to lead dust.

The gloves which should always be worn when handling steel sheet, to prevent cuts, will give additional protection when handling lead alloy coated sheet by reducing contamination of the hands with lead which could otherwise be inhaled or ingested when smoking or eating.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.
