

Dental rotary instruments —

Part 9: Methods of test

This European standard EN 28325:1989 has the status of a British Standard

UDC 615.47:616.314:620.1

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Health Care Standards Committee (HCC/-) to Technical Committee HCC/52, upon which the following bodies were represented:

- British Dental Association
- British Dental Trade Association
- British Endodontic Society
- British Society for Restorative Dentistry
- British Society for the Study of Orthodontics
- British Society for the Study of Prosthetic Dentistry
- Dental Education Advisory Council
- Department of Health and Social Security
- Federation of British Dental Industries
- Ministry of Defence
- Scottish Health Services

This British Standard, having been prepared under the direction of the Health Care Standards Committee, was published under the authority of the Board of BSI and comes into effect on 29 May 1987

National foreword

This Part of BS 6828 has been prepared under the direction of the Health Care Standards Committee. It is identical with ISO 8325:1985 “*Dental rotary instruments — Test methods*”, prepared by Technical Committee 106 “Dentistry” of the International Organization for Standardization (ISO). The titles of BS 6828-1 to BS 6828-9 are given in BS 6828-1.

In 1989 the European Committee for Standardization (CEN) accepted ISO 8325:1985 as European Standard EN 28325:1989.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “Part of BS 6828”.

Cross-references

International Standard	Corresponding British Standard
ISO 1101:1983	BS 308 <i>Engineering drawing practice</i> Part 3:1972 <i>Geometrical tolerancing</i> (Technically equivalent)
ISO 1797:1985	BS 6828 <i>Dental rotary instruments</i> Part 1:1987 <i>Specification for shanks</i> (Identical)
ISO 2859:1974	BS 6001 <i>Sampling procedures for inspection by attributes</i> Part 1:1972 <i>Specification for sampling plans indexed by acceptable quality level (AQL) for lot-by-lot inspection</i> (Technically equivalent)
ISO 3630:1984	BS 6815:1987 <i>Specification for dental root canal instruments</i> (Identical)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
