Foreword

This Section of BS 684 has been prepared by Technical Committee AW/11. It supersedes BS 684-0:1989, which is withdrawn. Appendix B of BS 684-0:1989 has been published separately as BS EN ISO 661:1995.

BS 684, which was first published in 1936, was revised in 1950 and 1958. In 1976 the standard was divided into a series of Parts and Sections, published separately to facilitate revision and the inclusion of methods of analysis published by the International Organization for Standardization (ISO), some of which have now been implemented as European standards by the European Committee for Standardization (CEN).

It is essential that this Section be read in conjunction with the individual Sections of Parts 1 and 2.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
