

Safety of earth-moving machinery —

Part 22: Operator enclosure environment —

Section 22.5 Windscreen defrosting system test method

ICS 53.100

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/513, Construction equipment and plant and site safety, to Subcommittee B/513/1, Earth-moving machinery, upon which the following bodies were represented:

- British Coal Corporation
- Construction Plant (Hire Association)
- Federation of Civil Engineering Contractors
- Federation of Manufacturers of Construction Equipment and Cranes
- Health and Safety Executive
- Institution of Civil Engineers
- Silsoe Research Institute

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 June 1996

National foreword

This Section of BS 6912-22 has been prepared by Subcommittee B/513/1. It is identical with ISO 10263-5:1994 *Earth-moving machinery — Operator enclosure environment — Part 5: Windscreen defrosting system test method*, published by the International Organization for Standardization (ISO).

ISO 10263-5 was prepared by Subcommittee SC 2, Safety requirements and human factors, of ISO Technical Committee ISO/TC 127, Earth-moving machinery, with the active participation and approval of the UK.

The Sections of BS 6912-22 comprise:

- *Section 22.1: General and definitions;*
- *Section 22.2: Air filter test;*
- *Section 22.3: Operator enclosure pressurization test method;*
- *Section 22.4: Operator enclosure ventilation, heating and/or air-conditioning test method;*
- *Section 22.5: Windscreen defrosting system test method;*
- *Section 22.6: Determination of the effect of solar heating on the operator enclosure.*

Cross-references

International standard	Corresponding British Standard
ISO 5353:1978	BS 5631:1978 <i>Specification for earth-moving machinery and tractors and machinery for agriculture and forestry — Seat index point</i> (Identical)
