

Operation and maintenance of earth-moving machinery —

Part 4: Recommendations for service instrumentation

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Road Engineering Standards Policy Committee (RDB/-) to Technical Committee RDB/21, upon which the following bodies were represented:

- AFRC Institute of Engineering Research
- Associated Offices Technical Committee
- British Coal Corporation
- Construction Industry Training Board
- Construction Plant-hire Association
- Federation of Civil Engineering Contractors
- Federation of Manufacturers of Construction Equipment and Cranes
- Health and Safety Executive
- Institution of Civil Engineers
- Institution of Highways and Transportation
- Ministry of Defence

This British Standard, having been prepared under the direction of the Road Engineering Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 30 June 1990

National foreword

This Part of BS 6913 is a minor revision of BS 5635:1982 incorporating changes in the guide list of instruments for checking earth-moving machinery at the work-site. It has been prepared under the direction of the Road Engineering Standards Policy Committee. BS 6913-4 is identical with ISO 6012:1989 “*Earth-moving machinery — Service instrumentation*” published by the International Organization for Standardization (ISO). This Part of BS 6913 supersedes BS 5635:1982, which is withdrawn.

ISO 6012 was produced as a result of international discussion in which the UK took an active part.

Typographical error. The title of clause 2 “Field of application” should be inserted after note 2 of clause 1.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
