

Consumable accessories for light microscopes —

Part 3: Cover glasses —

Section 3.2 Specification for materials and quality of finish

IMPORTANT NOTE. It is essential that this Section be read in conjunction with Part 0 which is published separately.

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Laboratory Apparatus Standards Policy Committee (LBC/-) to Technical Committee LBC/33, upon which the following bodies were represented:

- British Microscope Manufacturers' Association
- Department of Health
- Department of Trade and Industry (National Physical Laboratory)
- Flat Glass Manufacturers' Association
- Medical Research Council
- Royal Microscopical Society
- Science Museum Library

This British Standard, having been prepared under the direction of the Laboratory Apparatus Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1990

Foreword

This Section of BS 7011 has been prepared under the direction of the Laboratory Apparatus Standards Policy Committee. This Section together with Sections 2.1, 2.2 and 3.1 supersede BS 3836-1:1974 which is withdrawn. The other Parts and Sections of this standard are listed in Part 0.

This Section of BS 7011 is related to ISO 8255-2 which is in preparation in Sub-committee 5 “Microscopes” of Technical Committee 172 “Optics and optical instruments” of the International Organization for Standardization (ISO). It has been decided to proceed with the publication of this Section without awaiting the publication of the corresponding International Standard in order to avoid the delay which would otherwise be caused. When the international work has been completed it will be implemented (subject to acceptance by the UK) as a revision of this Section.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
