National foreword

This British Standard has been prepared under the direction of the Building Services Standards Committee and is the English language version of EN 263 “*Specification for cast acrylic sheet for baths and shower trays for domestic purposes*” published by the European Committee for Standardization (CEN). This standard, together with BS 4305-1 and BS 4305-2, supersedes BS 4305:1972 which is hereby withdrawn.

EN 263 was produced as a result of international discussion in which the UK took an active part.

There are no British Standard direct equivalents to the ISO Standards quoted in this document. Copies of ISO Standards may be purchased in the UK from the BSI Sales Department or consulted in the BSI Library.

This standard is called up in BS 4305 “*Baths for domestic purposes made of acrylic material*” and BS 6340 “*Shower units*” Part 5 “*Specification for prefabricated shower trays made from acrylic material*”.

The detergent referred to in Table 2 is obtainable from the Plastic Bath Manufacturers’ Association, 14 Pall Mall, London SW1Y 5LZ. The same detergent, but without the optical whitener, is obtainable from the Society of Dyers and Colourists, Perkins House, 82 Gratton Road, Bradford, West Yorkshire BD1 2JB.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
