

Specification for

Audio recording-PCM encoder/decoder system —

(Implementation of
CENELEC HD 544 S1)

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Electronic Equipment Standards Policy Committee (EEL/-) to Technical Committee EEL/22, upon which the following bodies were represented:

- British Broadcasting Corporation
- British Kinematograph, Sound and Television Society
- Council for Educational Technology for the United Kingdom
- Electronic Engineering Association
- Independent Broadcasting Authority
- Independent Television Association
- Sound and Communication Industries Federation

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Educational Equipment Association
- British Tape Industry Association
- Royal Television Society

This British Standard, having been prepared under the direction of the Electronic Equipment Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 29 September 1989

Committees responsible	Inside front cover
National foreword	iii
1 Scope	1
2 Object	1
Section 1. General	
3 System description	1
Section 2. Format of the recorded signal	
4 General	1
5 Transmission rate	1
6 Configuration of the synchronizing signal	1
6.1 Horizontal synchronizing signal	1
6.2 Vertical synchronizing signal	1
7 Configuration of the horizontal line	1
7.1 Data synchronizing signal	1
7.2 Data block	1
7.3 White reference signal	2
7.4 Assignment in the horizontal period	2
8 Configuration of the vertical field	2
8.1 Audio data block line	2
8.2 Control data block line	2
8.3 Assignment in the vertical field	2
Section 3. Source encoding	
9 Audio signal	2
9.1 Number of audio channels	2
9.2 Emphasis	2
10 Source encoding	2
10.1 Sampling	2
10.2 Quantization	2
10.3 Coding	3
Section 4. Data block	
11 Configuration of the audio data block	3
11.1 General	3
11.2 Sampled signal word	3
11.3 Error correcting word	3
11.4 Interleaving	4
11.5 Error detecting word	4
11.6 Assignment in the audio data block	4
12 Configuration of the control data block	4
12.1 General	4
12.2 Cueing word	4
12.3 Content identification word	5
12.4 Address word	5
12.5 Control word	5
12.6 Error detecting word	5
12.7 Assignment in the control data block	5
Appendix A Noise level in back porch	11
Appendix B Error correcting word	11
Appendix C Videocassette system considerations	11

National foreword

This British Standard has been prepared under the direction of the Electronic Equipment Standards Policy Committee and is identical with IEC 841:1988 “Audio recording — PCM encoder/decoder system”, published by the International Electrotechnical Commission (IEC). This British Standard is also in agreement with Harmonization Document HD 544 S1, published by the European Committee for Electrotechnical Standardization (CENELEC).

Cross-references

International Standard	Corresponding British Standard
IEC 767:1983	BS 6502:1984 <i>Specification for helical-scan video tape cassette system using 12.65 mm (0.5 in) magnetic tape on type Beta format</i> (Identical)
IEC 774:1983	BS 6482:1984 <i>Specification for helical-scan video tape cassette system using 12.65 mm (0.5 in) magnetic tape on type VHS</i> (Identical)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
