Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PRI/23, Chemical testing of rubber, upon which the following bodies were represented:

- Malaysian Rubber Producers' Research Association
- Ministry of Defence
- RAPRA Technology Ltd.
- Royal Society of Chemistry

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 April 1996

© BSI 08-1999

First published as BS 7164
November 1990
Second edition April 1996

The following BSI references relate to the work on this standard:

National foreword

This Part of BS 7164 has been prepared by PRI/23 and is identical to ISO 249:1995 *Rubber, raw natural — Determination of dirt content*, published by the International Organization for Standardization (ISO).

It supersedes BS 7164-8:1990 which is withdrawn.

Cross-references

International Standard	Corresponding British Standard
ISO 1795:1992	BS 6315:1993 <i>Methods for sampling and further preparative procedures for raw, natural and synthetic rubber</i> (Identical)

The Technical Committee has reviewed the provisions of ISO 565:1990, ISO 2393:1994 and ISO/TR 9272:1986 to which normative reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard.

ISO 565:1990 is related to BS 410:1986 *Specification for test sieves* and ISO 2393:1994 is related to BS 1674:1991 *Specification for equipment and general procedure for mixing and vulcanizing rubber test mixes*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
