

Orthopaedic joint prostheses —

Part 13: Method for determination of resistance to torque of head fixation of stemmed femoral components

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CH/25, Orthopaedic joint prostheses, upon which the following bodies were represented:

- Association of British Healthcare Industries
- British Institute of Surgical Technologists
- British Orthopaedic Association
- British Steel Industry
- British Surgical Trades Association
- Department of Health
- Department of Trade and Industry (National Engineering Laboratory)
- Royal College of Surgeons of England
- Scottish Office

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 October 1995
