National foreword

This British Standard has been prepared under the direction of the Personal Safety Equipment Standards Policy Committee and is the English language version of EN 142 “*Respiratory protective devices: mouthpiece assemblies: requirements, testing, marking*”, published by the European Committee for Standardization (CEN). EN 142 was produced as a result of international discussions in which the United Kingdom took an active part.

There was previously no equivalent British Standard to EN 142 although reference is made to mouthpieces in BS 4667-1:1974. BS 4667-1 will be withdrawn when EN 136 and EN 145 have been published as British Standards.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
