Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee FME/9, Bolts, nuts and accessories, upon which the following bodies were represented:

- BEAMA Ltd.
- British Constructional Steelwork Association Ltd.
- British Industrial Fasteners' Federation
- British Steel Industry
- British Steel Industry (Wire Section)
- Gauge and Tool Makers' Association
- National Association of Fastener Stockholders
- Society of Motor Manufacturers and Traders Ltd.
- Washer Manufacturers' Association of Great Britain

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Turned-parts Manufacturers' Association
- Institute of Metal Finishing
- Metal Finishing Association
- National Centre of Tribology
- Stainless Steel Fabricators' Association of Great Britain

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1998

Foreword

This British Standard has been prepared by Technical Committee FME/9 to provide Part of a series of standards on requirements for coatings on metals fasteners.

WARNING. This British Standard calls for the use of substances and/or procedures that may be injurious to health if adequate precautions are not taken. It refers only to technical suitability and in no way absolves the supplier or the user from statutory obligations relating to health and safety at any stage of manufacture or use.

Compliance with this British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.
