Summary of pages

This document comprises a front cover, an inside front cover, pages i to ii, pages 1 to 6, an inside back cover and a back cover.

Foreword

Publishing information

This British Standard is published by BSI and came into effect on 30 April 2009. It was prepared by Subcommittee FW/0/2, *Domestic and contract furniture*, under the authority of Technical Committee FW/0, *Furniture*. A list of organizations represented on these committees can be obtained on request to their secretary.

Supersession

Together with BS EN 15372:2008, this British Standard supersedes BS 7376:2004, which is withdrawn.

Information about this document

This new edition of BS 7376 incorporates changes made necessary by the publication of BS EN 15372. It does not represent a full review or revision of the standard, which will be undertaken in due course.

BS EN 15372 specifies strength, stability and durability requirements for non-domestic tables, including those featuring glass in their construction. Therefore this new edition of BS 7376 has been prepared to cover domestic tables and trolleys only.

The purpose of this British Standard is to provide designers, manufacturers, retailers, consumers and other interested parties with performance requirements that should minimize the risks of serious accidents with glass in tables and trolleys.

Hazard warnings

WARNING. This British Standard calls for the use of substances and/or procedures that can be injurious to health if adequate precautions are not taken. It refers only to technical suitability and does not absolve the user from legal obligations relating to health and safety at any stage.

Presentational conventions

The provisions of this standard are presented in roman (i.e. upright) type. Its requirements are expressed in sentences in which the principal auxiliary verb is “shall”.

Commentary, explanation and general informative material is presented in smaller italic type, and does not constitute a normative element.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.
