June 1998

Installation of factory-made chimneys to BS 4543 for domestic appliances —

Part 4: Recommendations for installation design and installation

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/506, Chimneys, to Subcommittee B/506/5, Chimneys and their components having inner linings of metal, upon which the following bodies were represented:

Association of British Solid Fuel Appliances Manufacturers
 British Coal Corporation
 British Combustion Equipment Manufacturers' Association
 British Flue and Chimney Manufacturers' Association
 British Gas plc
 British Precast Concrete Federation Ltd.
 British Steel Industry
 Building Services Research and Information Association
 Clay Pipe Development Association Limited
 Department of the Environment
 Department of the Environment (Construction Directorate)
 Health and Safety Executive
 Institute of Domestic Heating and Environmental Engineers
 National Association of Plumbing, Heating and Mechanical Services Contractors
 National Federation of Master Steeplejacks and Lightning Conductor Engineers
 National House-building Council

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

Department of the Environment (Building Research Establishment)
 Institute of Vitreous Enamellers
 Real Fire Association
 Society of British Gas Industries
 Vitreous Enamel Development Council

This British Standard, having been prepared under the direction of Technical Committee B/506, was published under the authority of the Standards Board and comes into effect on 15 July 1992

Foreword

This British Standard has been prepared under the direction of Technical Committee B/506 Chimneys, and together with Parts 1 to 3 of BS 7566 supersede BS 6461-2:1984 which is withdrawn.

This Part of BS 7566 covers the installation of factory-made chimneys complying with the requirements of BS 4543. Masonry chimneys are covered by BS 6461-1:1984.

BS 7566 is published in separate Parts in an attempt to highlight the interfaces involved in the successful specification, design and installation of factory-made chimneys.

Part 1 of BS 7566 gives a method of specifying the information which should be supplied by the purchaser to the installation designer.

Part 2 of BS 7566 specifies design instructions to be followed by the installation designer to take account of the purchaser's requirements and relevant standards, when developing an acceptable chimney design for the particular application.

Part 3 of BS 7566 specifies installation practices which are to be followed in order to ensure that the designer's intentions are satisfactorily realized and which reflect good site supervision and working practices.

This Part of BS 7566 gives guidance to the purchaser, designer and installer on the options which have to be identified and the methods of achieving specified requirements in a manner that will ensure a safe and satisfactory installation. It also gives important guidance on matters such as maintenance and cleaning.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.
