National foreword

This British Standard has been prepared under the direction of the Power Electrical Engineering Standards Policy Committee. It is identical with IEC 703:1981 *Test methods for electroheating installations with electron guns*, published by the International Electrotechnical Commission (IEC). This standard also implements Harmonization Document HD 440 S1:1983 which was published by the European Committee for Electrotechnical Standardization (CENELEC).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
