

CONFIRMED
DECEMBER 2007

Specification for

Prevailing torque type bolts, screws and studs with non-metallic prevailing torque elements incorporated into the thread

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Mechanical Engineering Standards Policy Committee (GME/-) to Technical Committee GME/9, upon which the following bodies were represented:

- BEAMA Ltd.
- British Constructional Steelwork Association Ltd.
- British Industrial Fasteners' Federation
- British Railways Board
- British Steel Industry
- British Steel Industry (Wire Section)
- Gauge and Tool Makers' Association
- Ministry of Defence
- Society of Motor Manufacturers and Traders Limited
- Washer Manufacturers' Association of Great Britain

This British Standard, having been prepared under the direction of the General Mechanical Engineering Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 January 1994

Foreword

This British Standard has been prepared under the direction of the General Mechanical Engineering Policy Committee. It includes performance properties for prevailing torque type bolts, screws and studs with non-metallic prevailing torque features.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
