

High chromium-nickel corrosion resisting steel forging stock, bars, forgings and parts (880 to 1 080 MPa: limiting ruling section 100 mm)

ICS 49.025.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ACE/15, Wrought and cast steels for aerospace, upon which the following bodies were represented:

- Cast Metals Federation (CMF)
- Civil Aviation Authority — Airworthiness
- Confederation of British Metalforming
- Institute of Spring Technology
- Ministry of Defence — UK Defence Standardization
- Society of British Aerospace Companies Ltd.
- UK Steel Association
- Co-opted members

This British Standard, having been prepared under the direction of the Engineering Sector Policy and Strategy Committee, was published under the authority of the Standards Sector Policy and Strategy Committee on 28 June 2002
