Publication history

First published December 2010

Amendments issued since publication

Date	Text affected
------	---------------

Contents

Foreword *iii*

1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Exchange of information and time schedules	1
5	Thickness of stone	2
6	Methods of attachment and support	2
7	Jointing and pointing	4
8	Accommodation of dimensional changes	7
9	Permissible deviations	7

Annexes

Annex A (normative) Alternative guidance for the assessment of panel thickness 8

Annex B (informative) Method of test for pre-cast fixing tests on natural stone-faced concrete samples 8

Bibliography 10

List of figures

Figure 1 – Typical details of fixing plate for stone-faced concrete units 3

Figure 2 – Types of joints 4

Figure B.1 – Typical report form 9

List of tables

Table 1 – Minimum width of joints 6

Table A.1 – Panel thickness for stone-faced pre-cast concrete units 8

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 10, an inside back cover and a back cover.

Foreword

Publishing information

This part of BS 8298 is published by BSI and came into effect on 31 December 2010. It was prepared by Technical Committee B/545, *Natural Stone*. A list of organizations represented on this committee can be obtained on request to its secretary.

Supersession

Together with BS 8298-1, BS 8298-2, BS 8298-4 and BS 8298-5¹⁾, this part of BS 8298 supersedes BS 8298:1994, which is withdrawn.

Relationship with other publications

BS 8298, *Code of practice for the design and installation of natural stone cladding and lining*, will be issued in five parts:

- *Part 1: General;*
- *Part 2: Traditional handset external cladding;*
- *Part 3: Stone-faced pre-cast concrete cladding systems;*
- *Part 4: Rainscreen and stone on metal frame cladding systems;*
- *Part 5: Internal linings.*¹⁾

Information about this document

This is a full revision of the standard, and introduces the following principal changes:

- BS 8298 has been completely restructured by splitting it into five parts;
- the BS 8298 parts have been updated to reflect general changes in the fixings systems available to support natural stone cladding panels.

BS 8298-1 contains the terms and definitions for all the parts of BS 8298.

Assessed capability. Users of this British Standard are advised to consider the desirability of quality system assessment and registration against the appropriate standard in the BS EN ISO 9000 series by an accredited third-party certification body.

Use of this document

As a code of practice, this part of BS 8298 takes the form of guidance and recommendations. It should not be quoted as if it were a specification and particular care should be taken to ensure that claims of compliance are not misleading.

Any user claiming compliance with this part of BS 8298 is expected to be able to justify any course of action that deviates from its recommendations.

¹⁾ In preparation.

Presentational conventions

The provisions in this standard are presented in roman (i.e. upright) type. Its recommendations are expressed in sentences in which the principal auxiliary verb is “should”.

Commentary, explanation and general informative material is presented in smaller italic type, and does not constitute a normative element.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.
