Contents

Foreword *ii*

1	Scope	<i>1</i>
2	Normative references	<i>1</i>
3	Terms and definitions	<i>2</i>
4	General	<i>2</i>
5	Colorimetric and photometric properties of material	<i>2</i>
6	Physical properties of polyester material	<i>3</i>
7	Method for measurement of chromaticity co-ordinates and luminance factor	<i>4</i>

Annex

Annex A (informative) Examples of colours *5*

Bibliography *6*

List of tables

Table 1 – Chromaticity co-ordinates and luminance factor for beach safety flag materials *3*

Table A.1 – Examples for colours which fall within the specified chromaticity co-ordinates and luminance factor *5*

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

Foreword

Publishing information

This part of BS 8504 was published by BSI and came into effect on 31 July 2006. It was prepared by Subcommittee PH/8/2, *Public information graphical symbols and signs*, under the authority of Technical Committee PH/8, *Graphical symbols*. A list of organizations represented on this committee can be obtained on request to its secretary.

Relationship with other publications

BS 8504 is published in two parts:

- *Part 1: Colour, shape and meaning;*
- *Part 2: Materials – Requirements and test methods.*

Information about this document

The purpose of BS 8504 is to specify a standardized set of beach safety flags. It is important that beach safety flags are standardized to aid their comprehension. Whilst education in the comprehension of beach safety flags is essential, incomprehension caused by lack of standardization can lead to confusion and possibly danger. International travel increases the need for standardized methods of safety communication.

Presentational conventions

The provisions of this standard are presented in roman (i.e. upright) type. Its requirements are expressed in sentences in which the principal auxiliary verb is “shall”.

Commentary, explanation and general informative material is presented in smaller italic type, and does not constitute a normative element.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.
