Information about this document

CAUTION. This British Standard features parts that have cadmium as a plating material, which has been restricted and/or banned for use in many countries owing to environmental and health concerns: they should not be used in new product designs. Users should consult local officials if they have any questions concerning the use of cadmium-plated parts.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard, having been approved by the Aerospace Industry Standards Committee, was published under the authority of the Executive Board on 24 June, 1974.
