Foreword

This British Standard has been prepared under the direction of the Automobile Standards Committee and is based upon information sheet G-19-A of the Society of Motor Manufacturers and Traders Limited.

Its purpose is to establish basic dimensional requirements to ensure interchangeability of demountable vehicle body systems.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
