National foreword

This British Standard, which has been prepared under the direction of the Automobile Standards Committee, is identical with ISO 7237:1981 “*Road vehicles — Masses and dimensions of caravans — Terms and definitions*” prepared by Technical Committee ISO/TC 22, Road vehicles, and published by the International Organization for Standardization (ISO).

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

Cross-references. The references in the text to ISO 1176 are to the revised edition of ISO 1176, currently in course of preparation. The 1974 edition is referred to in clause 3.

The technical committee has reviewed the provisions of ISO 612, ISO 1103, ISO 1176 and ISO 3833, referred to in the text, and has decided that they are acceptable for use in conjunction with this standard.

A related British Standard for ISO 1103 is BS AU 113a “*Specification for dimensional characteristics of coupling ball for caravans and light trailers*”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
