Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Automobile Standards Committee (AUE/-) to Technical Committee AUE/16, upon which the following bodies were represented:

- Association of Trailer Manufacturers
- Department of Transport (Highways)
- Electric Cable Makers' Confederation
- Institution of Electronic and Radio Engineers
- National Caravan Council Limited
- Society of Motor Manufacturers and Traders Limited

This British Standard, having been prepared under the direction of the Automobile Standards Committee, was published under the authority of the Board of BSI and comes into effect on 28 February 1986

National foreword

This Part of BS AU 206 has been prepared under the direction of the Automobile Standards Committee and is identical with ISO 7639:1985 “*Road vehicles — Diagnostic systems — Graphical symbols*” published by the International Organization for Standardization (ISO). For ease of production the French text has been retained.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following. Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

Cross-references

International Standards	Corresponding British Standards
ISO 1219:1976	BS 2917:1977 <i>Specification for graphical symbols used on diagrams for fluid power systems and components</i> (Identical)
ISO 2575:1982	BS AU 143c:1984 <i>Specification for symbols for controls, indicators and tell-tales for road vehicles</i> (Identical)
IEC 417:1973	BS 6217:1981 <i>Guide to graphical symbols for use on electrical equipment</i> (Identical)
IEC 617-4:1983	BS 3939 <i>Guide for graphical symbols for electrical power, telecommunications and electronics diagrams</i> Part 4:1985 <i>Passive components</i> (Identical)

The Technical Committee has reviewed the provisions of ISO 2972 and ISO 7000 to which reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard. A related British Standard to ISO 2972:1979 is BS 3641 “*Symbols for machine tools*” Part 2:1980 “*Specification for numerical control symbols*”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 10, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

1 Scope and field of application

This International Standard specifies graphical symbols for diagnostic testers:

- marking of controls, indicators and tell-tales;
- use for indications on screens, and similar variable indicating systems;
- marking of connections and other input and output openings.

NOTE — For graphical symbols on controls, indicators and tell-tales in road vehicles, see ISO 2575.

NOTE — Reference numbers of symbols appearing in other International Standards and IEC Publications are given under "Remarks".

1 Objet et domaine d'application

La présente Norme internationale spécifie les symboles graphiques pour bancs de diagnostic en ce qui concerne

- le marquage des commandes, indicateurs et témoins;
- l'utilisation pour les indications sur écrans et autres systèmes similaires d'indication de variables;
- le marquage des connexions et autres entrées et sorties.

NOTE — Pour les symboles graphiques pour les commandes, indicateurs et témoins dans les véhicules routiers, voir l'ISO 2575.
