Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Automobile Standards Committee (AUE/-) to Technical Committee AUE/16, upon which the following bodies were represented:

- Association of Trailer Manufacturers
- Department of Transport (Highways)
- Electric Cable Makers' Confederation
- Institution of Electronic and Radio Engineers
- National Caravan Council Limited
- Society of Motor Manufacturers and Traders Limited

This British Standard, having been prepared under the direction of the Automobile Standards Committee, was published under the authority of the Board of BSI and comes into effect on 28 February 1986

National foreword

This Part of BS AU 206 has been prepared under the direction of the Automobile Standards Committee and is identical with ISO 7342:1982 “*Road vehicles — Diagnostic systems — Equipment for ignition systems testing*” published by the International Organization for Standardization (ISO).

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

Cross-reference

International Standard	Corresponding British Standard
ISO 4092:1984	BS AU 206 <i>Diagnostic systems for road vehicles</i> Part 1:1986 <i>Glossary</i> (Identical)

The Technical Committee has reviewed the provisions of ISO 2542, ISO 3553 and ISO 6518-1, to which reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
