Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Automobile Standards Committee (AUE/-) to Technical Committee AUE/13, upon which the following bodies were represented:

- Department of Transport (Highways)
- Freight Transport Association
- Institute of Road Transport Engineers (Incorporated)
- London Regional Transport
- Ministry of Defence
- National Bus Company
- Road Haulage Association Ltd.
- Society of Motor Manufacturers and Traders Ltd.

This British Standard, having been prepared under the direction of the Automobile Standards Committee, was published under the authority of the Board of BSI and comes into effect on 29 January 1988

National foreword

This British Standard has been prepared under the direction of the Automobile Standards Committee. It is identical with ISO 8755:1986 “*Commercial road vehicles — Mechanical connections between towing vehicles and trailers — 40 mm drawbar coupling*”, published by the International Organization for Standardization (ISO).

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

Cross-references

International Standard	Corresponding British Standard
ISO 3584:1975	BS AU 166:1977 <i>Specification for road vehicles — Mounting of mechanical coupling devices on rear cross members of trucks</i> (Identical)
ISO 1102:1986	BS AU 220:1988 <i>Specification for dimensions of 50 mm drawbar couplings between commercial road vehicles and trailers</i> (Identical)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages
