The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality* — Part 2:1991 *Specification for the national implementation of the CECC system*.

The technical committee has reviewed the provisions of CECC 00200 and CECC 00400 to which reference is made in the text and has decided that they are acceptable for use in conjunction with this standard¹⁾.

CECC 210000 has not yet been published. When it has been published it is intended to adopt it as an identical British Standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
