

Rule of Procedure 11 Specifications —

**Part 3: Regulations for CECC
Specifications for components for
general and professional (civil and
military) usage (excluding detail
specifications)**

Committees responsible for this British Standard

This British Standard was prepared by the Electronic Components Standards Policy Committee (ECL/-) upon which the following bodies were represented:

- BEAMA Ltd.
- British Standards Society
- British Telecommunications plc
- EEA (The Association of the Electronics, Telecommunications and Business Equipment Industries)
- Electronic Components Industry Federation
- Ministry of Defence
- National Supervising Inspectorate
- Society of British Aerospace Companies Limited

This British Standard, having been prepared under the direction of the Electronic Components Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 October 1991

National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Policy Committee. It is identical with CECC 00111 “*Rule of Procedure 11, Specifications, Part III: Regulations for CECC Specifications for components for general and professional (civil and military) usage (excluding detail specifications)*” 4th edition, including Amendments 1, 2, 3 and 4, published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC).

This standard prescribes the contents of CECC Specifications, the methods for their preparation and approval and their implementation.

ISO 497:1973	
ISO 1000:1981	BS 5555:1981 <i>Specification for SI units and recommendations for the use of their multiples and of certain other units</i> (Identical)

^a Contains Parts 1 and 2.

The British Standard which implements the CECC Rules of Procedure is BS 9000 “*General requirements for a system for electronic components of assessed quality*” Part 2:1991 “*Specification for the national implementation of the CECC system*”.

The Electronic Components Standards Policy Committee has reviewed the provisions of CECC 00300, CECC 00400, IEC 27, and IEC 410 to which reference is made in the text and has decided that they are acceptable for use in conjunction with this standard¹⁾.

CECC 00111-VI has not yet been published. When it has been published it is intended to adopt it as an identical British Standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, the CECC title page, page ii, pages 1 to 22, an inside back cover and a back cover. This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

¹⁾ It is not intended that CECC 00300 and CECC 00400 will be adopted as British Standards.

PREAMBULE

Cette Règle de Procédure (RP) décrit le système de spécifications du CECC; elle prescrit le contenu de ces spécifications, les méthodes concernant leur préparation, leur approbation et leur mise en application.

La Partie 0 présente des types de spécifications applicables dans le système CECC

La Partie I donne les règles générales applicables à toutes les spécifications CECC

La Partie II donne les règles spéciales applicables aux spécifications CECC pour les composants sous assurance renforcée de la qualité, par exemple, ceux pour applications spatiales et aéronautiques

La Partie III donne les règles applicables aux spécifications CECC pour les composants d'usage général et professionnel (civil et militaire), à l'exception des spécifications particulières

La Partie IV donne les règles applicables aux spécifications particulières

La Partie V décrit la préparation des spécifications selon la procédure de l'Émetteur unique

La Partie VI donne les règles applicables aux règles applicables aux plans d'agrément de procédé (PAS)

La Partie VII donne les règles applicables aux spécifications CECC de composants et aux spécifications de contrôle

FOREWORD

This Rule of Procedure (RP) gives a description of the specification system of the CECC; it prescribes the contents of these specifications, the methods for their preparation and approval and their implementation.

Part 0 gives an introduction to the types of specifications applicable within the CECC System

Part I gives general regulations for all CECC Specifications

Part II gives special regulations for CECC Specifications for components of enhanced assessment of quality, for example for space and avionic applications

Part III gives the regulations for CECC Specifications for components for general and professional (civil and military) usage (excluding detail specifications)

Part IV gives the regulations for detail specifications

Part V describes the preparation of specifications under the Single Originator Procedure

Part VI gives the regulations for CECC Process Assessment Schedules (PAS)

Part VII gives the regulations for CECC component specifications and assessment specifications

VORBEMERKUNG

Diese Verfahrensregel (RP) beschreibt die Struktur des Systems der CECC-Spezifikationen; sie legt den Inhalt dieser Spezifikationen fest sowie die Verfahren für ihre Erstellung, Annahme und Verwendung.

Teil 0 enthält eine Einführung zu den im CECC-System verfügbaren Spezifikationen

Teil I enthält allgemeine Regeln für alle CECC-Spezifikationen

Teil II enthält besondere Regeln für CECC-Spezifikationen für Bauelemente mit verschärfter Gütebestätigung, z.B. für die Luft- und Raumfahrt

Teil III enthält die Regeln für CECC-Spezifikationen (außer Bauartspezifikationen) für Bauelemente für allgemeinen und professionellen (zivilen und militärischen) Bedarf

Teil IV enthält die Regeln für Bauartspezifikationen

Teil V beschreibt das Erstellen von Spezifikationen durch Einzelurheber

Teil VI enthält die Bestimmungen für die Fertigungsanerkennung (PAS) innerhalb des CECC-Systems

Teil VII enthält die Bestimmungen für CECC Bauformspezifikationen und Bewertungsspezifikationen
