

Rule of Procedure 11 Specifications —

Part 6: Regulations for Process Assesement Schedules (PAS)

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Electrotechnical Sector Board to Technical Committee ECL/- upon which the following bodies were represented:

- British Standards Society
- British Telecommunications plc
- Federation of the Electronics Industry (FEI)
- Ministry of Defence
- National Supervising Inspectorate (BSI QA)
- Society of British Aerospace Companies Limited

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1994

National foreword

This British Standard has been prepared under the direction of the Electrotechnical Sector Board. It is identical with CECC 00111-VI *Rule of Procedure 11, Specifications, Part VI: Regulations for Process Assessment Schedules (PAS)*, Issue 1, published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC).

This standard prescribes the contents of CECC PASs, the methods for their preparation and approval and their implementation.

CECC 200000:1993	BS CECC 200000:1993 <i>Harmonized system of quality assessment for electronic components. Requirements for process assessment schedules for process approval</i> (Identical)

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirement for a system for electronic components of assessed quality* Part 2:1991 *Specification for the national implementation of the CECC system*.

The technical committee has reviewed the provisions of CECC 00301 and CECC 00700 to which reference is made in the text and has decided that they are acceptable for use in conjunction with this standard¹⁾.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

¹⁾ It is not intended that CECC 00301 and CECC 00700 will be adopted as British Standards.

REGLE DE PROCEDURE 11 PARTIE VI:

REGLES APPLICABLES AUX PROGRAMMES
D'EVALUATION DE PROCEDE (PAS)

PREAMBULE

Cette Règle de Procédure (RP) décrit le système de spécifications du CECC; elle prescrit le contenu de ces spécifications, les méthodes concernant leur préparation, leur approbation et leur mise en application

La Partie 0 présente des types de spécifications applicables dans le système CECC

La Partie I donne les règles générales applicables à toutes les spécifications CECC

La Partie II donne les règles spéciales applicables aux spécifications CECC pour les composants sous assurance renforcée de la qualité, par exemple, ceux pour applications spatiales et aéronautiques

La Partie III donne les règles applicables aux spécifications CECC pour les composants d'usage général et professionnel (civil et militaire), à l'exception des spécifications particulières

La Partie IV donne les règles applicables aux spécifications particulières

La Partie V décrit la préparation des spécifications selon la procédure de l'Emetteur unique

RULE OF PROCEDURE 11 PART VI:

REGULATIONS FOR CECC PROCESS
ASSESSMENT SCHEDULES (PASs)

FOREWORD

This Rule of Procedure (RP) gives a description of the specification system of the CECC; it prescribes the contents of these specifications, the methods for their preparation and approval and their implementation.

Part 0 gives an introduction to the types of specifications applicable within the CECC System

Part I gives general regulations for all CECC Specifications

Part II gives special regulations for CECC Specifications for components of enhanced assessment of quality, for example for space and avionic applications

Part III gives the regulations for CECC Specifications for components for general and professional (civil and military) usage (excluding detail specifications)

Part IV gives the regulations for detail specifications

Part V describes the preparation of specifications under the Single Originator Procedure

VERFAHRENSREGEL 11 TEIL VI:

BESTIMMUNGEN FÜR PRÜFABLAUF-PLÄNE
ZUR VERFAHRENSBEWERTUNG (PAS)

VORWORT

Diese Verfahrensregel (RP) beschreibt die Struktur des Systems der CECC-Spezifikationen; sie legt den Inhalt dieser Spezifikationen fest sowie die Verfahren für ihre Erstellung, Annahme und Verwendung.

Teil 0 enthält eine Einführung zu den im CECC-System verfügbaren Spezifikationen

Teil I enthält allgemeine Regeln für alle CECC-Spezifikationen

Teil II enthält besondere Regeln für CECC-Spezifikationen für Bauelemente mit verschärfter Gütebestätigung, z.B. für die Luft- und Raumfahrt

Teil III enthält die Regeln für CECC-Spezifikationen (außer Bauartspezifikationen) für Bauelemente für allgemeinen und professionellen (zivilen und militärischen) Bedarf

Teil IV enthält die Regeln für Bauartspezifikationen

Teil V beschreibt das Erstellen von Spezifikationen durch Einzelurheber
