

Rule of Procedure 11 Specifications —

Part 7: Regulations for component specifications and assessment specifications

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Electrotechnical Sector Board to Technical Committee ECL/- upon which the following bodies were represented:

- British Standards Society
- British Telecommunications plc
- Federation of the Electronics Industry (FEI)
- Ministry of Defence
- National Supervising Inspectorate (BSI QA)
- Society of British Aerospace Companies Limited

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1994

National foreword

This British Standard has been prepared under the direction of the Electrotechnical Sector Board. It is identical with CECC 00111-VII *Rule of Procedure 11, Specifications, Part 7: Regulations for component specifications and assessment specifications*, 1st edition, published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC).

This standard gives the regulations for CECC component specifications and assessment specifications.

^a Not yet published by CECC

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality — Part 2:1991 Specification for the national implementation of the CECC system*.

The technical committee has reviewed the provisions of CECC 00200 and CECC 00400 to which reference is made in the text and has decided that they are acceptable for use in conjunction with this standard¹⁾.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the CECC title page, pages ii to iv, pages 1 to 10, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

¹⁾ It is not intended that CECC 00200 and CECC 00400 will be adopted as British Standards.
