National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Policy Committee. It is identical with CECC 00112/I:1993 *Rule of Procedure 12, Voting procedures, Part I: CECC Rules of Procedure and specifications (excluding ENs)*, published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC).

This standard gathers together into one document all the various voting procedures used within the CECC System.

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality — Part 2: Specification for the national implementation of the CECC system*.

Cross-references

The Technical committee has reviewed the provisions of CECC 00400¹⁾, to which normative reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.
