

Rule of Procedure 14 — Quality assessment procedures —

**Part 0: An introduction to the types of
approval available under the CECC
System**

Committees responsible for this British Standard

This British Standard was prepared by the Electronics Components Standards Policy Committee (ECL/-), upon which the following bodies were represented:

- British Standards Society
- British Telecommunications plc
- Federation of the Electronics Industry
- Ministry of Defence
- National Supervising Inspectorate (BSI QA)

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 November 1994

© BSI 09-1999

First published December 1992
Second edition November 1994

National foreword

This British Standard has been prepared under the direction of the Electrotechnical Sector Board. It is identical with CECC 00114-0 *Rule of Procedure 14, Quality Assessment Procedures, Part 0: An introduction to the types of approval available under the CECC System*, published by the Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC).

This standard describes in detail the types of approval available under the CECC System as detailed in the requirements given in other parts of Rule of Procedure 14. It supersedes BS CECC 00114-0:1992 which is withdrawn. The standard has been revised to include editorial amendments and a new subclause 2.4 introducing Technology Approval.

Cross-references

International Standard	Corresponding British Standard
CECC 00111	BS CECC 00111 <i>Rule of Procedure 11. Specifications</i> (All Parts are identical)

	BS CECC 00114 <i>Rule of Procedure 14: Quality Assessment Procedures</i>
CECC 00114-II	Part 2:1993 <i>Qualification approval of electronic components</i> (Identical)
CECC 00114-III	Part 3:1993 <i>Capability approval of an electronic component manufacturing activity</i> (Identical)
CECC 00114-IV	Part 4:1992 <i>Procedures for enhanced assessment of quality</i> (Identical)
CECC 00114-V	Part 5:1993 <i>Process approval of specialist contractors within the electronic components industry</i> (Identical)
CECC 00114-VI	Part 6:1994 <i>Technology approval of electronic component manufacturers</i> (Identical)
CECC 200000	BS CECC 200000:1993 <i>Harmonized system of quality assessment for electronic components. Requirements for process assessment schedules for process approval</i> BS EN ISO 9000 <i>Quality systems</i>
EN 29001 ^a	BS EN ISO 9001:1994 <i>Model for quality assurance in design, development, production, installation and servicing</i> (Identical)
EN 29002 ^a	BS EN ISO 9002:1994 <i>Model for quality assurance in production, installation and servicing</i> (Identical)

^a Since the drafting of this standard CECC 00114-I has been superseded by EN 100114-1, EN 29001 by EN ISO 9001 and EN 29002 by EN ISO 9002. CECC 210000, which is referred to in the text, is in preparation. It is envisaged that when this is published it will be implemented as BS CECC 210000.

International Standard	Corresponding British Standard
EN 45001	BS 7501:1989 <i>General criteria for the operation of testing laboratories</i> (Identical)

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality — Part 2:1991 Specification for the national implementation of the CECC system.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, the CECC title page, page ii, pages 1 to 9 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
