National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Committee. It is identical with CENELEC Electronic Components Committee (CECC) 00800:1986 “*Harmonized system of quality assessment for electronic components. Code of practice on the use of the ppm approach in association with the CECC system*”.

This standard is a harmonized specification within the CECC system.

Details of the national implementation of CECC standards is given in BS 9000 “*General requirements for a system for electronic components of assessed quality*” — *Part 2* “Specification for national implementation of CECC basic rules and rules of procedure” .

Terminology and conventions. The text of the CECC code of practice has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards.
