Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee EPL/47, Semiconductors, upon which the following bodies were represented:

- Federation of the Electronics Industry
- GAMBICA (BEAMA Ltd.)
- Ministry of Defence
- National Supervising Inspectorate (BSI — Product Certification)
- Society of British Aerospace Companies Limited

The following bodies were also represented in the drafts of the standard, through subcommittees and panels:

- British Telecommunications plc
- UK Optical Sensors Collaborative Association

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1996

National foreword

This British Standard has been prepared by Technical Committee EPL/47 and is identical with CECC 00808:1996, *Guidance document: Use and application of plastic encapsulated devices*, published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC).

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system of electronic components of assessed quality — Part 2:1996 Specification for the national implementation of the CECC system*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the CECC title page, pages 2 to 6 and a back cover

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
