

Specification for Harmonized system of quality assessment for electronic components Blank detail specification

Dry reed change-over contact units, mechanically biased, for
general application

Système harmonisé d'assurance de la qualité des composants électroniques Spécification particulière cadre

Contacts de travail secs à deux directions en enceinte scellée
polarisés mécaniquement. Application générale

Harmonisiertes Gütebestätigungssystem für Bauelemente der Elektronik Vordruck für Bauartspezifikation

Trockene Reedkontakt-Einheiten mit mechanisch vorgespanntem Wechsler.
Allgemeine Anwendung

8408

BS CECC 18001 : 1984

National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Committee. It is identical with CENELEC Electronic Components Committee (CECC)18001 'Harmonized system of quality assessment for electronic components:Blank detail specification: Dry reed change-over contact units mechanically biased (General application)'.

This standard is a harmonized specification within the CECC system.

Terminology and conventions. The text of the CECC specification has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards. Attention is drawn especially to the following:

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Cross references. The British Standard harmonized with CECC 00100 is BS 9000 'General requirements for a system for electronic components of assessed quality' Part 2 'Specification for national implementation of CECC basic rules and rules of procedure'.

International standard

Corresponding British Standard

CECC 18000 : 1983

BS CECC 18000 : 1984 Harmonized system of quality assessment for electronic components : Generic specification : Dry reed change-over contact units mechanically biased.
(Identical)

CECC 19000 : 1978

BS CECC 19000 : 1979 Harmonized system of quality assessment for electronic components : Generic specification : Dry reed make contact units.
(Identical)

IEC 410 : 1973

BS 6001 : 1972 Sampling procedures and tables for inspection by attributes.
(Technically equivalent)

Scope. This standard lists the ratings, characteristics and inspection requirements to be included as mandatory requirements in accordance with BS CECC 18000.

Detail specification layout. The front page layout of detail specifications shall conform with that specified in the blank detail specification. Where no mandatory requirements for the front page layout are included in the blank detail specification the requirements of BSI Circular Letter No. 15 shall be followed.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

English version

Harmonized System of Quality Assessment for
Electronic Components

**BLANK DETAIL SPECIFICATION:
DRY REED CHANGE-OVER
CONTACT UNITS
MECHANICALLY BIASED
(General Application)**

Système Harmonisé d'Assurance de la Qualité
des Composants Electroniques

**SPECIFICATION PARTICULIERE CADRE:
