Text of CECC 30702	1

National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Policy Committee (ECL/-). It is identical with CECC 30702:1989 “*Harmonized system of quality assessment for electronic components. Blank Detail Specification: Fixed capacitors of ceramic dielectric, class 2*” published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC). It is a harmonized specification within the CECC system of quality assessment for electronic components.

CECC 30702 was prepared by CECC WG3, “*Capacitors*” and the UK participation in the drafting was provided by Subcommittee ECL/4/4, “*Capacitors and electromagnetic interference suppression components for electronic equipment*”, under the direction of Technical Committee ECL/4 “*Capacitors and resistors for electronic equipment*”.

Scope. This standard lists the ratings, characteristics and inspection requirements which shall be included as mandatory requirements in accordance with BS CECC 30700:1991 in any detail specifications for this type of capacitor which requires inspection procedures at Assessment Level P (Telecom level).

Cross-references

International Standard	Corresponding British Standard
IEC 410:1973	BS 6001 <i>Sampling procedures for inspection by attributes</i> Part 1:1991 <i>Specification for sampling plans indexed by acceptable quality level (AQL) for lot-by-lot inspection</i> (Technically equivalent)
CECC 30000: Issue 3:1983 Amendments 1 to 6	BS CECC 30000:1992 <i>Harmonized system of quality assessment for electronic components. Generic specification: Fixed capacitors</i> (Identical)
CECC 30700: Issue 2:1989	BS CECC 30700:1991 <i>Harmonized system of quality assessment for electronic components. Sectional specification: Fixed capacitors of ceramic dielectric, class 2</i> (Identical)

The British Standard which implements the CECC Rules of Procedure is BS 9000 “*General requirements for a system for electronic components of assessed quality*” Part 2:1991 “*Specification for the national implementation of the CECC system*”.

Detail specifications. Detail specifications shall comply with the requirements of this Blank Detail Specification and BS CECC 00111 “*Rule of Procedure 11*” Specifications, Part 4:1991. “*Regulations for CECC detail specifications*”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the CECC title page, pages ii to vi, pages 1 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
