National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Policy Committee (ECL/-). It is identical with CECC 31601:1986 “*Harmonized system of quality assessment for electronic components. Blank Detail Specification: Fixed capacitors with paper or paper/plastic dielectrics*” published by the European Committee for Electrotechnical Standardization (CENELEC) Electronic Components Committee (CECC). It is a harmonized specification within the CECC system of quality assessment for electronic components.

CECC 31601 was prepared by CECC WG3, “*Capacitors*” and the UK participation in the drafting was provided by Subcommittee ECL/4/4, “*Capacitors and electromagnetic interference suppression components for electronic equipment*”, under the direction of Technical Committee ECL/4 “*Capacitors and resistors for electronic equipment*”.

Scope. This standard lists the ratings, characteristics and inspection requirements which shall be included as mandatory requirements in accordance with BS CECC 31600 in any detail specifications for this type of capacitor.
