

Specification for

Harmonized system of quality assessment for electronic components —

Blank detail specification —

Fixed precision resistors

National foreword

This British Standard has been prepared under the direction of the Electronic Components Standards Committee. It is identical with CENELEC Electronics Components Committee (CECC) 40301:1975: “*Harmonized system of quality assessment for electronic components. Blank detail specification: fixed precision resistors*” as amended by Amendment No. 1 (1986).

This standard is a harmonized specification within the CECC system.

Details of national implementation of CECC standards is given in BS 9000-2:1983 “*Specification for national implementation of CECC basic rules and rules of procedure*”.

Terminology and conventions. The text of the CECC specification has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards. Attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.
