National foreword

This British Standard has been prepared under the direction of the Electronic Components Standard Committee. It is identical with CENELEC Electronic Components Committee (CECC) 90202:1985 “*Harmonized system of quality assessment for electronic components. Blank detail specification: Integrated voltage regulators*”.

Terminology and conventions. The text of the CECC specification has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Cross-references. The British Standard which implements CECC 00100 is BS 9000 “*General requirements for a system for electronic components of assessed quality*” — Part 2: “*Specification for national implementation of CECC basic rules and rules of procedure*”.

International Standard	Corresponding British Standard
CECC 90000:1982	BS CECC 90000:1982. <i>Harmonized system of quality assessment for electronic components: Generic specification for monolithic integrated circuits</i> (Identical)
CECC 90200:1983	BS CECC 90200:1983. <i>Harmonized system of quality assessment for electronic components: Sectional specification: Analogue monolithic integrated circuits</i> (Identical)

Scope. This standard lists the ratings, characteristics and inspection requirements which shall be included as mandatory requirements in accordance with BS CECC 90000 in any detail specification for these devices.

Detail specification layout. The front page layout of detail specifications released to BS CECC family or blank detail specifications will be in accordance with BS 9000 Circular Letter No. 15.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the CECC title page, page ii, pages 1 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
