

Tensile testing of metallic materials —

Part 2: Verification of the force measuring system of the tensile testing machine

Cooperating organizations

The European Committee for Standardization, under whose supervision this European Standard was prepared, comprises the national standards organizations of the following Western European countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisiitto, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard was published under the authority of the Standards Board and comes into effect on 28 February 1992

National appendix NA (informative)	Inside back cover

National foreword

This British Standard has been prepared under the direction of the Iron and Steel and the Non-ferrous Metals Standards Policy Committees and is the English language version of EN 10002-2 *“Metallic materials — Tensile testing — Part 2: Verification of the force measuring system of the tensile testing machine”* ratified by the CEN/BT on 25 September 1991. Together with BS 1610-1:1992, it supersedes BS 1610-1:1985 which is withdrawn.

A new edition of BS 1610-1 will be published simultaneously with this standard and is to be used for verification in the compression mode (which is not addressed in BS EN 10002-2).

NOTE Although the scope of EN 10002-2 is limited to the tensile testing of metallic materials, it should be noted that the test described could be used for the tensile testing of all materials.

Other Parts of EN 10002, either published or in preparation, are listed in the foreword to EN 10002-2.

National appendix NA gives the constitution of the committees for UK participation in the preparation of this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

UDC 669:620:172

Descriptors: Metal products, mechanical tests, tension tests, tensile testing machines, measurements, loads, verification

English version

Metallic materials — Tensile testing — Part 2: Verification of the force measuring system of the tensile testing machine

Matériaux métalliques — Essai de traction —
Partie 2: Vérification du système de mesure
de la charge de la machine d'essai de traction

Metallische Werkstoffe — Zugversuch —
Teil 2: Prüfung der Kraftmesseinrichtungen
von Zugprüfmaschinen

This European Standard was approved by CEN on 25 September 1991. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
