Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/NFE/4, Mechanical testing of metals, upon which the following bodies were represented:

- AEA Technology
- Aluminium Federation
- British Non-Ferrous Metals Federation
- British Railways Board
- British Steel Industry
- Copper Development Association
- Department of Trade and Industry (National Physical Laboratory)
- Department of Trade and Industry (National Measurement Accreditation Service)
- ERA Technology Ltd.
- Electricity Association
- GAMBICA (BEAMA Ltd.)
- Institute of Materials
- Light Metal Founders' Association
- Ministry of Defence
- Society of British Aerospace Companies Limited
- University College London
- Welding Institute

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Department of Trade and Industry (National Engineering Laboratory)
- Society of Motor Manufacturers and Traders Limited

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1995

National foreword

This British Standard has been prepared by Technical Committee ISE/NFE/4. It is identical with EN 10003-3 *Metallic materials — Brinell hardness test — Part 3: Calibration of standardized blocks to be used for Brinell hardness testing machines*, drawn up by ECISS (European Committee for Iron and Steel Standardization) and published by the European Committee for Standardization (CEN).

It supersedes BS 240:1986, which is withdrawn.

Cross-references

Publication referred to	Corresponding British Standard
EN 10002-3	BS EN 10002 <i>Tensile testing of metallic materials</i> Part 3: <i>Calibration of force proving instruments used for the verification of universal testing machines</i> BS EN 10003 <i>Metallic materials — Brinell hardness test</i>
EN 10003-1	Part 1: <i>Test method</i>
EN 10003-2	Part 2: <i>Verification of Brinell hardness testing machines</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
