Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/12, Structural steels, upon which the following bodies were represented:

- BEAMA Ltd.
- British Constructional Steelwork Association Ltd.
- British Iron and Steel Producers' Association
- British Railways Board
- Department of Transport
- Institution of Structural Engineers
- Lloyd's Register of Shipping
- National Association of Steel Stockholders
- Railway Industry Association of Great Britain
- Society of Motor Manufacturers and Traders Ltd.
- Steel Construction Institute
- Welding Institute

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 April 1996

National foreword

This British Standard has been prepared by Technical Committee ISE/12 and is the English language version of EN 10137-3:1995, *Plates and wide flats made of high yield strength structural steels in the quenched and tempered or precipitation hardened conditions — Part 3: Delivery conditions for precipitation hardened steels*, published by the European Committee for Standardization (CEN).

Together with BS EN 10137-1:1996 and BS EN 10137-2:1996, it supersedes BS 7613:1994 which is withdrawn.

Cross-references

Publication referred to	Corresponding British Standard
EN 10137-1:1995	BS EN 10137 <i>Plates and wide flats made of high yield strength structural steels in the quenched and tempered or precipitation hardened conditions</i> Part 1:1996 <i>General delivery requirements</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 77.140.10; 77.140.50

Descriptors: Iron and steel products, metal plates, wide flats, steels, structural steels, high yield strength steels, delivery conditions, hardening, chemical composition, grades, quality, designation, mechanical properties, inspection, tests, marking

English version

**Plates and wide flats made of high yield strength
structural steels in the quenched and tempered or
precipitation hardened conditions —
Part 3: Delivery conditions for precipitation hardened steels**

Tôles et larges plats en aciers de construction à
haute limite d'élasticité à l'état trempé et
revenu ou durci par précipitation —
Partie 3: Conditions de livraison des aciers
durcis par précipitation

Blech und Breitflachstahl aus Baustählen mit
höherer Streckgrenze im vergüteten oder im
ausscheidungsgehärteten Zustand —
Teil 3: Lieferbedingungen für
ausscheidungsgehärtete Stähle

This European Standard was approved by CEN on 1995-08-06. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
